**INDIAN WATER WORKS ASSOCIATION, MUMBAI CENTRE  
ANNOUNCES  
5th TRAINING COURSE  
IN RAINWATER HARVESTING**

**ABOUT INDIAN WATER WORKS ASSOCIATION (IWWA)**

Indian Water Works Association (IWWA) is a non-government organization established in 1968 by engineers from Hydraulic Engineers Department of Municipal Corporation of Greater Mumbai & Brihan Mumbai Licensed plumbing Association, Mumbai under the leadership of then Municipal Hydraulic Engineer late Shri D R Bhise to give a platform to engineers, consultants, scientists, environmentalists & contractors from the field of Water & waste water to interact with each other to find solutions to the problems in the field through its 34 centers all over India.

IWWA disseminates the latest trends & technologies in water treatment, water quality waste, water treatment, eco-sanitation, environment, pollution by way of holding seminars, workshops & Conferences at National & International Levels. A quarterly journal is published to give a chance to publish their research papers, case studies etc to all working in these fields. IWWA has collaboration agreement with American Water Works Association(AWWA)USA, to print their standards related with water and water treatments in India for Indian engineering fraternity. IWWA has also entered in MOU with International Water Association(IWA)UK to hold workshops on eco-sanitation in India, as well as supply of material for Ecosan projects in India. IWWA is also has collaboration with Japan Water Works Association(JWWA) & is also a member of Global Water Partnership(GWP) under United Nations.

**ABOUT THE WORKSHOP**

Every summer there is a big hue & cry for drinking water in our cities. Rapid urbanization & industrializations leading to increase in water demand as well as overexploitation & pollution of water resources which further leads to water scarcity,

This scenario has created several questions such as:

- How can we augment depleting ground water?
- How to ensure continuous availability of water?
- How the load on Municipal water supply can be reduced?

You can get the answers to these questions from this Training Programme, organized by Mumbai Centre of Indian Water Works Association
