

Indian Water Works Association Mumbai Centre

Notice

IWWA Mumbai Centre is pleased to announce upcoming event of

Technical Visit

to two Water Treatment Plants in Badlapur in Thane District on 18/02/2022.

There is 100 years old Water Treatment Plant of 36 MLD capacity constructed in 1923 and is still working efficiently. There is another Water Treatment Plant of 24 MLD constructed recently for augmentation in water supply. During this Technical Site Visit, working of both the WTP will be explained by MJP authority engineers in charge & operating those plants. The visit is useful to Student Members to understand Water Treatment Technology and Processes.

Mumbai Centre of IWWA has arranged this Technical Visit to disseminate the knowledge about Water Treatment.
