

# Indian Water Works Association

Mumbai Centre

## **-: INVITATION :-**

Mumbai is changing by six Metros' network. Metro - 3 will run below the ground from Colaba covering Island City & South of Western Suburb up to Jogeshwari. There are many underground utilities and its protection was pre-planned & care is being taken with advance methods. The information on protection of utilities by Metro-3 project will be interesting to know, especially about water & waste water conduits. IWWA Mumbai has arranged a technical lecture on
